

# YUPPI CAMP

Free recreational therapy camps and activities for children with chronic illnesses

**Camp Association**

# GOAL

At Yuppi Camp, children with chronic illnesses and their families experience healing moments that help them discover their inner strength for a fulfilling life. We organize free therapeutic camps and activities together with experienced volunteers. In this way, we respond to the need of children and families facing chronic illness to be in a safe space, within a supportive community, after having gone through—and continuing to go through—the daily challenges caused by illness.

# STRONG POINTS

## CHILDREN'S SAFETY ABOVE ALL

Our volunteers go through a selection process and receive specialized training for the activities they carry out. During the camps, we also provide 24/7 medical assistance with the support of dedicated medical teams.

## WE OFFER THERAPEUTIC EXPERIENCES

All activities are based on the principles of recreational therapy. As such, they contribute significantly to the children's psycho-emotional development by strengthening resilience and self-esteem. **Sports activities also represent an important component of our summer camps.**

## YUPPI VOLUNTEERS

The activities are implemented by teams of volunteers specially trained for the camp activities and for interacting with children living with chronic illnesses. To prepare them, we organize a training weekend before the camps. After the camps, we also hold an annual volunteers' gathering.

# TYPES OF CAMPS

Family Camp for  
children with diabetes

Family Camp for  
children with cancer  
and other chronic  
illnesses

Siblings Camp for  
children with cancer  
and other chronic  
illnesses

Camp for children  
and adolescents with  
diabetes and other  
chronic illnesses

# GENERAL CHARACTERISTICS

**CHILDREN with  
CHRONIC ILLNESSES**  
with ages between  
0-18 years

**2026 location:**  
Natur Air Park,  
Vărșag, jud. Harghita

**CHILDREN's disease:**  
diabetes, cancer, heart  
disease, auto-immun  
disease (celiac disease,  
JIA, etc.)

**4 and 5-day-long,  
100% free summer  
camps**

# SPORTS ACTIVITIES IN YUPPI CAMPS

## NONDISCRIMINATION

Sport is an activity that does not discriminate, as it emphasizes individual abilities.

## ADAPTABILITY

Sports activities in our camps can be very well adapted to the (developmental) needs and individual abilities of each child.

## SENSE of ACHIEVEMENT

These types of activities have a high potential for success, thereby giving children the opportunity to discover a sense of achievement, which is a key moment in recreational therapy.

# SPORTS ACTIVITIES IN YUPPI CAMPS

## CLIMBING

Climbing activities are an excellent way to develop and strengthen skills such as concentration and teamwork. At the same time, the activity contributes significantly to increasing self-esteem and developing perseverance in unfamiliar and challenging situations.

# SPORTS ACTIVITIES IN YUPPI CAMPS

## ARCHERY

Archery activities require concentration, precision, and discipline. They are therefore an excellent activity for developing these skills. Moreover, to succeed, children must also develop body awareness in order to be able to successfully handle the bow and aim accurately.

# SPORTS ACTIVITIES IN YUPPI CAMPS

## HORSE RIDING

Horses are often involved in therapeutic activities. Within the camps, this activity contributes significantly to reducing children's stress, thereby also helping them cope with the trauma caused by chronic illnesses.
